## RE: Pre-Demolition Survey Report (PDSR) for Building 886 - Approval

Dear Mr. Legare:

The Colorado Department of Public Health and Environment, Hazardous Materials and Waste Management Division has reviewed the PDSR for Building 886 - 886 Closure Project - Phase 2, Part 1 PDSR, Revision 0 dated April 1, 2002, which was received on April 4, 2002. The Division has also reviewed the previously submitted PDSR, 886 Cluster-Phase 1 Closure Project, Revision 0 dated July 10, 2001, which was received on September 20, 2001. Based on the information contained in these two PDSR documents, we are hereby approving the PDSR for B886 and the above ground portion of the Tunnel. In a letter dated Oct 12, 2001, the Division previously approved the PDSR for B888, 888A, and T886A.

Utilizing the consultative process, the Division has also previously concurred with the results of the in-process/PDS characterizations for, and the demolition of, the North side of B886.

As indicated in this PDSR, another PDSR for B828, B875 (including the below ground section of the Tunnel), and B880 will be submitted for approval at a later date. In addition, the previously performed PDS on the exterior of B875 may not be sufficient. Additional investigation of the exterior of B875 should be performed after completing the demolition of B886.

If you have any questions regarding this correspondence please contact me at (303) 692-3367 or David Kruchek at (303) 692-3328.

Sincerely,

Steven H. Gunderson  
RFCA Project Coordinator
